TESTIMONIALS from SES users

My proposal reads much better with your revisions!

Awesome tips on how to write, approach revising or how to meet the word count!

I have a much better application because of your efforts!

I'm a big fan of the SES. I'm working on a new grant right now with the service.

I will work on revising with your feedback in mind and send it to my collaborators

I appreciate how you simplified the language without sacrificing meaning.

I took a quick look at the documents. Already I can tell that they are significantly improved.

Thank you! Wow! Time to get to work ...

I included your suggested edits into my application (submitting today)!

Your comments were amazing! Thank you so much!
