“Will Artificial Intelligence Disrupt Cardiology?”

January 15th, 2019 | 3:30-4:30pm
Eric P. Newman Education Center, Room 301

-Light refreshments will be provided-

John S. Rumsfeld, MD, PhD
Chief Innovation Officer at American College of Cardiology; Professor of Medicine at University of Colorado

John S. Rumsfeld, MD, PhD, FACC, FAHA, FESC is the Chief Innovation Officer for the American College of Cardiology (ACC), the 53,000-member non-profit professional association for cardiovascular clinicians in the U.S. and internationally. In this role, Dr. Rumsfeld is responsible for developing a long-term innovation agenda to help the ACC maintain its competitive advantage in the global marketplace, investigating global and domestic market trends in the delivery of cardiovascular care and health information technology, and exploring new technologies and team-based approaches to health care.
